CAMPUS HEALTH SERVICES

Campus Health is committed to fostering an inclusive culture that encourages, supports, and celebrates the diverse backgrounds of the community we serve. This commitment to diversity and inclusion is demonstrated in the following components of CHS:

- High-quality, respectful, and gender-affirming healthcare for all students
- Sensitive inclusivity of all races, cultures, classes, and religions
- Offering to include your chosen name and pronouns on your student medical record
- All gender restroom facilities on the 1st and 2nd floors

Collaboration between medical and mental health staff ensures a continuity of gender confirming healthcare via the multidisciplinary Trans Treatment Team, which meets periodically to review Campus Health cases and policy.
